Research Report on China's Dairy Cattle Farming Industry	1
Research Background	1
Summary	1
1. Overview of China's Dairy Market	5
1.1 Growing Trend of Processing Industry of Milk and Dairy Products	5
1.1.1 Dairy Cattle Inventory	5
1.1.2 Milk Production	5
1.1.3 Cow Yield	5
1.1.4 Dairy Cattle Farming Scale	6
1.1.5 Liquid Milk Production	6
1.1.6 Production of Dry Dairy Products	7
1.1.7 Per Capita Milk Possession Volume	8
1.1.8 Trade of Dairy Products and Dairy Animals	9
1.2 Gradual Improvement of Dairy Farming Industry in National Economy	11
1.3 China Shifted from Milk-insufficiency to Big Producer of Milk in the World	12
1.4 Time Is Needed for China to Shift from A Big Milk Producer to A Competitive Milk	
2. Analysis of Policies and Regulations on Dairy Farming Industry in China	14
2.1 Comments on Promotion of Constant and Healthy Development of Dairy Industry from the State Council (Guo Fa [2007] 31)	14
2.2 Administrative Rules on Dairy Quality and Safety Supervision	16
2.3 Plan on Dairy Industry Rectification and Vitalization	16
2.4 Industrial Policy on Dairy Processing (2009 amendment)	19
2.5 Regulating Raw Milk Market Order	21
2.6 Regulating Raw Milk Pricing Mechanism	22
2.7 Subsidy for Elite Breeds	23
2.8 Subsidy for Agro Machinery	24
2.9 Insurance for Dairy Cattle	25
2.10 Control over Import of Dairy Animal Products	26
2.11 Raw Milk Standard	27
3. Analysis of Major Technologies of Dairy Farming Industry	33
3.1 Embryo Bioengineering Technology	33
3.2 DHI Performance Test	37
4. Analysis of Supply of Dairy Cattle Farming Industry	39
4.1 Dairy Cattle Inventory	39
4.1.1 Dairy Cattle Breeds	39
4.1.2 Dairy Cattle Inventory	39
4.2 Milk Production	42
4.2.1 Gross Raw Milk Production	42
4.2.2 Raw Milk Production Layout of Various Places and Cow Yield	42
4.3 Dairy Cattle Introduction	45
4.3.1 Live Cattle	45
4.3.2 Frozen Semen	46
4.3.3 Embryos	47
5. Analysis of Demand of Dairy Cattle Farming Industry	49

5.1 Disparity in Dairy Consumption between Chinese Residents and Other Countries	49
5.2 Analysis of Demand for Food Nutrition of Chinese Residents	50
6. Analysis of Marketing Environment of Dairy Cattle Farming Industry	53
6.1 Trading Market of Dairy Cattle and Germ Plasm	53
6.1.1 Importation Procedure and Supervision over Import of Dairy Cattle and Germ Plasm	53
6.1.2 Major Suppliers of Dairy Cattle and Its Germ Plasm	54
6.1.3 Pricing Mechanism of Dairy Cattle and Germ Plasm in China	57
6.2 Raw Milk Trading Market in China	61
6.2.1 Raw Milk Pricing Mechanism	61
6.2.2 Composition of Raw Milk Price	61
6.2.3 Roles of Raw Milk Procurement Stations (milk stations) in Raw Milk Pricing	62
6.2.4 Impact from Government on Raw Milk Price	63
7. Analysis of Dairy Cattle Related Industries in China	65
7.1 Feed	65
7.2 Milking and Relevant Equipment	67
7.2.1 Milking Equipment	67
7.2.2 Cooling Tanks	68
7.3 Vaccines	69
8. Analysis of Cost-Benefit of Dairy Farms of Different Scales	70
8.1 Dairy Cattle Farming Scales	70
8.2 Smallholder Farming	72
8.3 Scaled Farms	76
8.4 Efficiency of Some Scaled Dairy Cattle Farms in Raw Milk Producing Regions after Melamine Incident	89
8.5. Analysis of Cost-Benefit of Different Farming Scales	94
9. SWOT Analysis of Different Farming Scales	97
9.1 Smallholder Farms	97
9.2 Farming Zones	98
9.3 Dairy Farmers' Cooperatives	99
9.4 Milk Unions	99
9.5 Farms Owned by Dairy Processing Companies	101
9.6 Trend of Dairy Cattle Farming Modes	102
10. Analysis of Epidemic Environment of Dairy Cattle Farming Industry	103
10.1 Epidemic Categories	103
10.2 Regional Layout of Dairy Cattle Epidemics	103
10.3 Epidemic Control and Dairy Cattle Insurance Policy	105
10.3.1 Prevention of Dairy Cattle Disease	105
10..3.2 Policy Insurance	105
11. Analysis of Impacts from Melamine Incident and Financial Crisis to Dairy Cattle Farming Industry in China	124
11.1 Impact on Dairy Cattle Price and Raw Milk Price Trend	124
11.2 Short-term Decline of Dairy Cattle Inventory	125
11.3 Accelerated Elimination of Low-yield Dairy Cattle and Improvement of Yield	125
11.4 Heightening of Threshold to Dairy Cattle Farming Industry	126
11.4.1 Prerequisite for Establishment of Dairy Farms and Farming Zones	126

11.4.2 Prerequisite for Opening Raw Fresh Milk Procurement Stations (milk stations)	126
11.5 Pacing up Transition from Extensive to Scaled, Intensive and Quality Efficiency Farming	127
11.6 Slowing down of Development of Dairy Cattle Farming Industry to Become Normal	127
11.7 Standardization of Supervision over Raw Milk Market	128
11.8 Raw Milk Quality Standard Gradually Links up with International Norms with Accelerated Improvement	128
12. Analysis of Investment Opportunities of Dairy cattle farming industry	130
12.1 Market Demand	131
12.1.1 Feed	131
12.1.2 Live Animals	131
12.1.3 Frozen Semen and Embryos	131
12.1.4 Vaccines	132
12.2 Milking Equipment	132
12.3 Farm Management Software System	132
12.4 Testing Facilities of Raw Milk	132
12.5 Training of Human Resources	133

Figures & Tables
