

TABLE OF CONTENTS

Part One Feeding Antibiotics and Application Environment

- 1 Feeding Antibiotics and Classification
 - 1.1 Feeding Antibiotics and Classification
 - 1.2 Major Functions and Qualifications Required of Antibiotics in Animal Husbandry
 - 1.3 Problems with Antibiotics in Animal Husbandry
- 2 Application Environment of Feeding Antibiotics in China
 - 2.1 Demands for Antibiotics from China Husbandry Industry
 - 2.2 Food Safety Problems Receive Growing Concern
 - 2.3 MOA Regulations on Antibiotics Use
 - 2.4 MOA May Fight against Abuse of Antibiotics and Hormones in Animal Farming

Part Two Antibiotics Application in Chinese Feed Mills

- 3 Antibiotics Application in Hog Feed Mills
 - 3.1 Major Types and Functions of Antibiotics Applied to Hog Feed
 - 3.1.1 Major Types of Antibiotics Applied to Hog Feed
 - 3.1.2 Category of Commonly Used Antibiotics
 - 3.1.3 Antibacterial Spectrum and Main Functions of Commonly Used Antibiotics
 - 3.1.4 Compatibility of Commonly Used Antibiotics
 - 3.1.4.1 Piglet Phase (Weight < 30kg)
 - 3.1.4.2 Medium-sized Swine (Weight 30kg-60kg)
 - 3.1.4.3 Large Swine & Sow
 - 3.1.5 Penetration of Commonly Used Antibiotics in Hog Feed
 - 3.1.5.1 Antibiotics against Gram-negative Bacteria
 - 3.1.5.2 Antibiotics against Gram-positive Bacteria
 - 3.1.5.3 Broad-spectrum Antibiotics
 - 3.2 Additive Amounts of Antibiotics in Hog Feeds
 - 3.2.1 Allowed Additive Amounts of Antibiotics in Hog Feed
 - 3.2.2 Application Amount of Antibiotics in Different Growth Stage Feeds
 - 3.2.3 Application Amount of Antibiotics in Different Feed Types
 - 3.3 Costs and Cost Structure of Antibiotics in Hog Feeds
 - 3.3.1 Costs of Antibiotics in Different Growth Stage Feeds
 - 3.3.2 Proportion of Antibiotics Costs in Different Growth Stage Feeds
- 4 Antibiotics Application in Broiler Feed Mills
 - 4.1 Major Types and Functions of Antibiotics Applied to Broiler Feed
 - 4.1.1 Major Types of Antibiotics Applied to Broiler Feed
 - 4.1.2 Category of Commonly Used Antibiotics
 - 4.1.3 Antibacterial Spectrum and Main Functions of Commonly Used Antibiotics
 - 4.1.4 Compatibility of Commonly Used Antibiotics
 - 4.1.4.1 Baby Chicken (0-3 weeks)
 - 4.1.4.2 Medium-sized Broiler (4-6 weeks)
 - 4.1.4.3 Large-size Broiler (6 weeks to slaughter)

- 4.1.5 Penetration of Commonly Used Antibiotics in Broiler Feed
 - 4.1.5.1 Antibiotics against Gram-negative Bacteria
 - 4.1.5.2 Antibiotics against Gram-positive Bacteria
 - 4.1.5.3 Anticoccidiosis Medicine
- 4.2 Additive Amounts of Antibiotics in Broiler Feeds
 - 4.2.1 Allowed Additive Amounts of Antibiotics in Broiler Feed
 - 4.2.2 Application Amount of Antibiotics in Different Growth Stage Feeds
 - 4.2.3 Application Amount of Antibiotics in Different Feed Types
- 4.3 Costs and Cost Structure of Antibiotics in Broiler Feeds
 - 4.3.1 Costs of Antibiotics in Different Growth Stage Feeds
 - 4.3.2 Proportion of Antibiotics Costs in Different Growth Stage Feeds
- 5 Antibiotics Application in Layer Feed Mills
 - 5.1 Major Types and Functions of Antibiotics Applied to Layer Feed
 - 5.1.1 Major Types of Antibiotics Applied to Layer Feed
 - 5.1.2 Category of Commonly Used Antibiotics
 - 5.1.3 Antibacterial Spectrum and Main Functions of Commonly Used Antibiotics
 - 5.1.4 Compatibility of Commonly Used Antibiotics
 - 5.1.4.1 Layer Chick
 - 5.1.4.2 Grown Layer
 - 5.1.4.3 Laying Stage
 - 5.1.5 Penetration of Commonly Used Antibiotics in Layer Feed
 - 5.1.5.1 Antibiotics against Gram-negative Bacteria
 - 5.1.5.2 Antibiotics against Gram-positive Bacteria
 - 5.1.5.3 Anticoccidiosis Medicine
 - 5.2 Additive Amounts of Antibiotics in Layer Feeds
 - 5.2.1 Allowed Additive Amounts of Antibiotics in Layer Feed
 - 5.2.2 Application Amount of Antibiotics in Different Growth Stage Feeds
 - 5.2.3 Application Amount of Antibiotics in Different Feed Types
 - 5.3 Costs and Cost Structure of Antibiotics in Layer Feeds
 - 5.3.1 Costs of Antibiotics in Different Growth Stage Feeds
 - 5.3.2 Proportion of Antibiotics Costs in Different Growth Stage Feeds
- 6 Antibiotics Application in Cow Feed Mills
 - 6.1 Major Types and Functions of Antibiotics Applied to Cow Feed
 - 6.1.1 Major Types of Antibiotics Applied to Sow Feed
 - 6.1.2 Category of Commonly Used Antibiotics
 - 6.1.3 Antibacterial Spectrum and Main Functions of Commonly Used Antibiotics
 - 6.1.4 Compatibility of Commonly Used Antibiotics
 - 6.1.4.1 Calves and Grown Dairy Cattle
 - 6.1.4.2 Milking Cow
 - 6.1.5 Penetration of Commonly Used Antibiotics in Cow Feed
 - 6.2 Additive Amounts of Antibiotics in Cow Feeds
 - 6.2.1 Allowed Additive Amounts of Antibiotics in Cow Feed
 - 6.2.2 Application Amount of Antibiotics in Different Growth Stage Feeds
 - 6.3 Costs and Cost Structure of Antibiotics in Cow Feeds
 - 6.3.1 Costs of Antibiotics in Different Growth Stage Feeds
 - 6.3.2 Proportion of Antibiotics Costs in Different Growth Stage Feeds

- 7 Evaluations on Antibiotics by Feed Mills
 - 7.1 Major Factors Influencing Feed Mills on Antibiotics Purchase
 - 7.1.1 Influencing Degree of Different Factors on Purchasing Decision
 - 7.1.1.1 Prevention Effect
 - 7.1.1.2 Safety
 - 7.1.1.3 Cost
 - 7.1.1.4 Brand/ Producer
 - 7.1.1.5 Relation with Dealers
 - 7.1.1.6 Other Factors
 - 7.1.2 Influencing Degree on Purchasing Decision of Feed Mills with Different Scales
 - 7.1.2.1 Large-scale Feed Enterprises and Groups
 - 7.1.2.2 Medium-scale Feed Enterprises
 - 7.1.2.3 Small-scale Feed Enterprises
 - 7.2 Evaluations of Antibiotics by Feed Mills
 - 7.2.1 Evaluation of Effect
 - 7.2.2 Evaluation of Safety
 - 7.2.3 Evaluation of Cost
 - 7.2.4 Evaluation of Convenience
- 8 Application and Evaluations of Antibiotics Substitutes by Feed Mills
 - 8.1 Penetration of Antibiotics Substitutes in Feed Mills
 - 8.2 Adding Costs of Antibiotics Substitutes in Feeds
 - 8.3 Evaluations of Antibiotics Substitutes by Feed Mills

Part Three Application of Antibiotics in Chinese Farms

- 9 Application of Antibiotics in Hog Farms
 - 9.1 Application Process, Commonly Used Antibiotics for Different Growth Stages and Purposes
 - 9.1.1 Medicine Application Process for Fatten Hog
 - 9.1.1.1 Suckling Stage
 - 9.1.1.2 Nursery Stage
 - 9.1.1.3 Grown Stage
 - 9.1.2 Medicine Application Process for Breeding Swine
 - 9.1.2.1 Replacement Gilt
 - 9.1.2.2 Producing Sow
 - 9.1.2.3 Boar
 - 9.2 Rankings of Commonly Used Antibiotics in Hog Farms
 - 9.3 Use-patterns and Dosage of Top 5 Commonly Used Antibiotics in Hog Farms
 - 9.4 Antibiotics Costs for Hog Farms of Different Scales
- 10 Application of Antibiotics in Chinese Broiler Farms
 - 10.1 Application Process, Commonly Used Antibiotics for Different Growth Stages and Purposes
 - 10.1.1 Baby Chick Stage
 - 10.1.2 Medium-sized Broiler
 - 10.1.3 Large-size Broiler (6 weeks to slaughter)
 - 10.2 Rankings of Commonly Used Antibiotics in Broiler Farms

- 10.2.1 Non-anthelmintics
- 10.2.2 Anthelmintics
- 10.3 Use-patterns and Dosage of Top 5 Commonly Used Antibiotics in Broiler Farms
- 10.4 Antibiotics Costs for Broiler Farms of Different Scales
- 11 Application of Antibiotics in Chinese Layer Farms
 - 11.1 Application Process, Commonly Used Antibiotics for Different Growth Stages and Purposes
 - 11.1.1 Layer Chick
 - 11.1.2 Grown Layer
 - 11.1.3 Laying Stage
 - 11.2 Rankings of Commonly Used Antibiotics in Layer Farms
 - 11.2.1 Non-anthelmintics
 - 11.2.2 Anthelmintics
 - 11.3 Use-patterns and Dosage of Top 5 Commonly Used Antibiotics in Layer Farms
 - 11.4 Antibiotics Costs for Layer Farms of Different Scales
- 12 Application of Antibiotics in Chinese Cow Farms
 - 12.1 Application Process, Commonly Used Antibiotics for Different Growth Stages and Purposes
 - 12.1.1 Bovine Mastitis
 - 12.1.2 Reproductive System and Postpartum Diseases
 - 12.1.3 Digestive Diseases
 - 12.1.4 Diseases of Foot and Limb
 - 12.1.5 Metabolic Diseases
 - 12.2 Rankings of Commonly Used Antibiotics in Cow Farms
 - 12.3 Use-patterns and Dosage of Top 5 Commonly Used Antibiotics in Cow Farms
 - 12.4 Antibiotics Costs for Cow Farms of Different Scales
- 13 Evaluations of Antibiotics by Farms
 - 13.1 Major Factors Influencing Farms on Antibiotics Purchase
 - 13.1.1 Influencing Degree of Different Factors on Purchasing Decision
 - 13.1.2 Influencing Degree on Purchasing Decision of Farms with Different Scales
 - 13.1.2.1 Large-scale Farms
 - 13.1.2.2 Medium-scale Farms
 - 13.1.2.3 Households and Small-scale Farms
 - 13.2 Evaluations of Feeding Antibiotics by Farms
 - 13.2.1 Evaluation of Effect
 - 13.2.2 Evaluation of Safety
 - 13.2.3 Evaluation of Cost
 - 13.2.4 Evaluation of Convenience
- 14 Application and Evaluations of Antibiotics Substitutes by Farms
 - 14.1 Application and Evaluations of Antibiotics Substitutes by Hog Farms
 - 14.1.1 Penetration of Antibiotics Substitutes in Hog Farms
 - 14.1.2 Adding Costs of Antibiotics Substitutes in Hog Farms
 - 14.1.3 Evaluations of Antibiotics Substitutes by Hog Farms
 - 14.2 Application and Evaluations of Antibiotics Substitutes by Broiler Farms
 - 14.2.1 Penetration of Antibiotics Substitutes in Broiler Farms
 - 14.2.2 Adding Costs of Antibiotics Substitutes in Broiler Farms

- 14.2.3 Evaluations of Antibiotics Substitutes by Broiler Farms
- 14.3 Application and Evaluations of Antibiotics Substitutes by Layer Farms
 - 14.3.1 Penetration of Antibiotics Substitutes in Layer Farms
 - 14.3.2 Adding Costs of Antibiotics Substitutes in Layer Farms
 - 14.3.3 Evaluations of Antibiotics Substitutes by Layer Farms
- 14.4 Application and Evaluations of Antibiotics Substitutes by Cow Farms
 - 14.4.1 Penetration of Antibiotics Substitutes in Cow Farms
 - 14.4.2 Adding Costs of Antibiotics Substitutes in Cow Farms
 - 14.4.3 Evaluations of Antibiotics Substitutes by Cow Farms

Part Four Analysis on Major Producers of Commonly Used Antibiotics

- 15 Analysis on Multinational Animal Health Enterprises
 - 15.1 Pfizer Animal Health (Zoetis)
 - 15.1.1 Enterprise Profile
 - 15.1.2 Product Line in China
 - 15.1.3 Sales Channel
 - 15.1.4 Sales Volume of Major Products and Market Share in China
 - 15.1.5 Development Trend and Competitiveness in China
 - 15.2 Intervet/Schering-Plough Animal Health
 - 15.2.1 Enterprise Profile
 - 15.2.2 Product Line in China
 - 15.2.3 Sales Channel
 - 15.2.4 Sales Volume of Major Products and Market Share in China
 - 15.2.5 Development Trend and Competitiveness in China
 - 15.3 Merial
 - 15.3.1 Enterprise Profile
 - 15.3.2 Product Line in China
 - 15.3.3 Sales Channel
 - 15.3.4 Sales Volume of Major Products and Market Share in China
 - 15.3.5 Development Trend and Competitiveness in China
 - 15.4 Bayer
 - 15.4.1 Enterprise Profile
 - 15.4.2 Product Line in China
 - 15.4.3 Sales Channel
 - 15.4.4 Sales Volume of Major Products and Market Share in China
 - 15.4.5 Development Trend and Competitiveness in China
 - 15.5 Elanco
 - 15.5.1 Enterprise Profile
 - 15.5.2 Product Line in China
 - 15.5.3 Sales Channel
 - 15.5.4 Sales Volume of Major Products and Market Share in China
 - 15.5.5 Development Trend and Competitiveness in China
 - 15.6 Novartis
 - 15.6.1 Enterprise Profile
 - 15.6.2 Product Line in China

- 15.6.3 Sales Channel
- 15.6.4 Sales Volume of Major Products and Market Share in China
- 15.6.5 Development Trend and Competitiveness in China
- 15.7 Boehringer Ingelheim
 - 15.7.1 Enterprise Profile
 - 15.7.2 Product Line in China
 - 15.7.3 Sales Channel
 - 15.7.4 Sales Volume of Major Products and Market Share in China
 - 15.7.5 Development Trend and Competitiveness in China
- 15.8 Phibro Animal Health
 - 15.8.1 Enterprise Profile
 - 15.8.2 Product Line in China
 - 15.8.3 Sales Channel
 - 15.8.4 Sales Volume of Major Products and Market Share in China
 - 15.8.5 Development Trend and Competitiveness in China
- 16 Analysis on Domestic Antibiotics Enterprises
 - 16.1 CAHIC
 - 16.1.1 Enterprise Profile
 - 16.1.2 Product Line
 - 16.1.3 Sales Channel
 - 16.1.4 Sales Volume and Market Share in China
 - 16.1.5 Development Trend and Competitiveness
 - 16.2 Guangdong Dahuanong Animal Health Products Co., Ltd.
 - 16.2.1 Enterprise Profile
 - 16.2.2 Product Line
 - 16.2.3 Sales Channel
 - 16.2.4 Sales Volume and Market Share in China
 - 16.2.5 Development Trend and Competitiveness
 - 16.3 Tianjin Ringpu Biology Technology Stock Company
 - 16.3.1 Enterprise Profile
 - 16.3.2 Product Line
 - 16.3.3 Sales Channel
 - 16.3.4 Sales Volume and Market Share in China
 - 16.3.5 Development Trend and Competitiveness
 - 16.4 Shandong LuKang Pharmaceutical Co., Ltd.
 - 16.4.1 Enterprise Profile
 - 16.4.2 Product Line
 - 16.4.3 Sales Channel
 - 16.4.4 Sales Volume and Market Share
 - 16.4.5 Development Trend and Competitiveness
 - 16.5 Zhejiang Shenghua Biok Biology Co., Ltd.
 - 16.5.1 Enterprise Profile
 - 16.5.2 Product Line
 - 16.5.3 Sales Channel
 - 16.5.4 Sales Volume and Market Share
 - 16.5.5 Development Trend and Competitiveness

- 16.6 TECON
 - 16.6.1 Enterprise Profile
 - 16.6.2 Product Line in China
 - 16.6.3 Sales Channel
 - 16.6.4 Sales Volume and Market Share
 - 16.6.5 Development Trend and Competitiveness
- 16.7 Dabeinong Group
 - 16.7.1 Enterprise Profile
 - 16.7.2 Product Line
 - 16.7.3 Sales Channel
 - 16.7.4 Sales Volume and Market Share
 - 16.7.5 Development Trend and Competitiveness
- 16.8 Hebei Veyong Bio-Chemical Co. Ltd.
 - 16.8.1 Enterprise Profile
 - 16.8.2 Product Line
 - 16.8.3 Sales Channel
 - 16.8.4 Sales Volume and Market Share
 - 16.8.5 Development Trend and Competitiveness
- 16.9 Guangdong Galloper Veterinary Pharmaceutical Co., Ltd.
 - 16.9.1 Enterprise Profile
 - 16.9.2 Product Line
 - 16.9.3 Sales Channel
 - 16.9.4 Sales Volume and Market Share

List of Figures

- Fig.2-1, Application Proportion of Antibiotics against Gram-negative Bacteria in Hog Feed
- Fig.2-2, Application Proportion of Antibiotics against Gram-Positive Bacteria in Hog Feed
- Fig.2-3, Application Proportion of Broad-spectrum Antibiotics in Hog Feed
- Fig.2-4, Application Proportion of Antibiotics against Gram-negative Bacteria in Broiler Feed
- Fig.2-5, Application Proportion of Antibiotics against Gram-Positive Bacteria in Broiler Feed
- Fig.2-6, Application Proportion of Coccidium Antibiotics in Broiler Feed
- Fig.2-7, Application Proportion of Antibiotics against Gram-Positive Bacteria in Layer Feed
- Fig.2-8, Application Proportion of Antibiotics against Gram-Positive Bacteria in Cow Feed
- Fig.2-9, Penetration of Antibiotics Substitutes in Feed Mills
- Fig.2-10, Recognition Evaluation of Antibiotics Substitutes by Feed Mills
- Fig.3-1, Penetration of Commonly Used Antibiotics in Hog Farms
- Fig.3-2, Penetration of Commonly Used Antibiotics in Broiler Farms
- Fig.3-3, Penetration of Commonly Used Anthelmintics in Broiler Farms

Fig.3-4, Penetration of Commonly Used Antibiotics in Layer Farms
Fig.3-5, Penetration of Commonly Used Anthelmintics in Layer Farms
