

## **Chapter 1 Executive Summary**

Scope and Methodology

Scope of Report

Exclusions

Report Methodology

The Products

Consumer Health Awareness Drives Plant-Based Beverage Market

Marketers of Plant Milks Focus on “Natural” and “Organic” Products

Dietitians Heartily Support the Health Benefits of Plant-based Beverages

Plant Milks Have Been Consumed for Centuries

Consumers Choose Plant-Based Milks for a Number of Reasons

Soy milk

Health Impact

Almond Milk

Rice Milk

Hemp Milk

Coconut Milk

Additional Varieties of Dairy Alternative Beverages

Size and Growth of the Market

2011 U.S. Retail Sales Estimated at \$1.33 Billion for All Dairy Alternative Beverages

Table 1-1 U.S. Retail Sales of Dairy Alternative Beverages, 2010-2011 (in millions of dollars)

2011 U.S. Retail Sales Estimated at Just Under \$500 Million for Leading Refrigerated Dairy Alternative Beverages

Table 1-2 U.S. Retail Sales of Leading Refrigerated Dairy Alternative Beverages, 2010-2011 (in millions of dollars)

2011 U.S. Retail Sales Estimated at \$115 Million for Leading Shelf-Stable Dairy Alternative Beverages

Table 1-3 U.S. Retail Sales of Leading Shelf-Stable Dairy Alternative Beverages, 2010-2011 (in millions of dollars)

Packaged Facts Projects 2012 U.S. Retail Sales of Dairy Alternative Beverages at \$1.38 Billion

Table 1-4 Projected U.S. Retail Sales of Dairy Alternative Beverages, 2012 (in millions of dollars)

U.S. Dairy Alternative Beverage Retail Sales Projected Exceed \$1.7 Billion in 2016

Table 1-5 U.S. Retail Sales of Dairy Alternative Beverages, 2007-2016 (in millions of dollars)

The Marketers

Private Label Products Move Front and Center

Marketers Introduce Single-Serve Dairy Alternative Beverages

The Dairy Alternative Beverage Market Primarily Comprises Small, Private Companies

Marketers of Dairy Alternative Beverages Respond to Consumer Health, Social and Ethical Concerns

Regulatory Policy and Legislative Issues

The Food and Drug Administration Endorses the Health Benefits of Soy

The Role of Isoflavones in Health

The Food Allergen Labeling and Consumer Protection Act of 2004  
The USDA Position on the Term “Natural”  
The USDA Requirements for a Food or Beverage to Be Labeled “Organic”  
National Milk Producers Federation Petitions the FDA to Prohibit Use of the Word  
“Milk” Relating to Plant-Based Beverages  
Trends and New Products  
51 Dairy Alternative Beverages Introduced to the U.S. Market Between January 1, 2007  
and December 31, 2011  
Table 1-6 Number of Dairy Alternative Beverage Product Introductions in the United  
States, 2007-2011  
New Packaging Technologies  
Dairy Alternative Beverages Enter the Espresso Mainstream  
The Consumer  
Consumers Have Increased Consumption of Dairy Alternative Beverages in the Past Five  
Years, With a Shift From Soymilk and Rice Milk to Almond Milk  
Almond Milk Gaining on Soymilk for Most Popular Dairy Alternative Beverage  
Table 1-7 Response to Question: “Which Milk Alternatives Do You Drink/Use?,” 2011  
(percent)  
Half of Product Users Consumed Soymilk Five Years Ago, Compared to 21% Who  
Consumed Almond Milk Five Years Ago  
Table 1-8 Response to Questions About Milk Alternative Consumption Trends, 2011  
(percent of product users)  
Consumption of All Dairy Alternative Beverages Increases Substantially from 2006 to  
2011, With Almond Milk Seeing the Biggest Gain  
Table 1-9 Response to Questions About Milk Alternative Use Five Years Ago, 2011  
(percent of product users)  
Silk Soy Milk Leads the Pack As the Dairy Alternative Beverage Purchased Most Often  
by Consumers  
Table 1-10 Response to Question: Which Brand(s) of Milk Alternatives Do You Purchase  
Most Often?, 2011

## **Chapter 2 The Products**

Key Points  
Scope and Methodology  
Scope of Report  
Exclusions  
Report Methodology  
Overview  
First Plant-Based Beverage Introduced in 1983  
Consumer Health Awareness Drives Plant-Based Beverage Market  
Marketers of Plant Milks Focus on “Natural” and “Organic” Products  
Dietitians Heartily Support the Health Benefits of Plant-based Beverages  
Ready Availability of Information on Nutrition and Ingredients Encourages Consumers to  
Choose Good-For-You Products  
Plant Milks Have Been Consumed for Centuries  
Consumers Choose Plant-Based Milks for a Number of Reasons

Concern about Cholesterol and Fat in Dairy  
The Marketing of Plant-Based Beverages  
Nutritional Comparison of Plant Milks  
Table 2-1 Nutritional Comparison of Selected Plant Milks  
Advances in Packaging Technologies  
Package Labeling and Graphics Quickly Provide Vital Information for Consumers  
New Size Options for Dairy Alternative Beverages  
Soy milk  
Origins of Soy milk  
Synching Up with Natural/Organic  
The Greening of Soy  
Health Impact  
Table 2-2 Nutritional Comparison of 2%-fat Cow's Milk to Unsweetened Soy milk

### **Chapter 3 Size and Growth of Market**

Key Points

Note on IRI Data

2011 U.S. Retail Sales at \$1.33 Billion

Table 3-1 U.S. Retail Sales of Dairy Alternative Beverages, 2010-2011 (in millions of dollars)

2011 Retail Sales at Just Under \$500 Million for Leading Refrigerated Dairy Alternative Beverages

Table 3-2 U.S. Retail Sales of Leading Refrigerated Dairy Alternative Beverages, 2010-2011 (in millions of dollars)

Retail Sales Estimated at \$115 Million for Leading Shelf-Stable Dairy Alternative Beverages

Table 3-3 U.S. Retail Sales of Leading Shelf-Stable Dairy Alternative Beverages, 2010-2011 (in millions of dollars)

Retail Sales Projected at \$1.38 Billion for 2012

Table 3-4 Projected U.S. Retail Sales of Dairy Alternative Beverages, 2012 (in millions of dollars)

U.S. Dairy Alternative Beverage Retail Sales Projected at \$1.7 Billion in 2016

Table 3-5 U.S. Retail Sales of Dairy Alternative Beverages, 2007-2016 (in millions of dollars)

Table 3-6 U.S. Retail Sales of Soymilk and Selected Brands in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Soymilk Loses Share but Remains the Market Leader

Average Price Per Volume for Soymilk Brands Remains Essentially Unchanged from 2010 to 2011

Table 3-7 U.S. Average Price Per Volume for Selected Soymilk Brands in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Silk Products Hold Nearly 90% of the U.S. Retail Branded Soymilk Market in 2011

Table 3-8 Retail Sales Market Share of Soymilk Brands in Food, Drug and Mass-Market Stores, 2010-2011

Vanilla Slightly Leads Plain in the Retail U.S. Soy Milk Market in 2011

Figure 3-1 Percentage of the U.S. Retail Soy Milk Market Held by Various Flavors, 2011  
Almond Milk Sales Leap Forward

Table 3-9 U.S. Retail Sales of Almond Milk and Selected Brands in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Average Price Per Volume for Branded Almond Milk Products Increases Slightly in 2011

Table 3-10 U.S. Average Price Per Volume for Selected Almond Milk Brands in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Almond Breeze at 58% Share in the Almond Milk Market

Table 3-11 Retail Sales Market Share of Almond Milk Brands in Food, Drug and Mass-Market Stores, 2010-2011

Rice Milk Sales Decline

Table 3-12 U.S. Retail Sales of Selected Rice Milk Brands in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Average Price Per Volume for Rice Milk Brands Declines Slightly in 2011

Table 3-13 U.S. Average Price Per Volume for Selected Rice Milk Brands in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Rice Dream Varieties Hold More than 89% of the Rice Milk Market

Table 3-14 Retail Sales Market Share of Rice Milk Brands in Food, Drug and Mass-Market Stores, 2010-2011

Coconut Milk Rocks the Market

Table 3-15 U.S. Retail Sales of Coconut Milk and Selected Brands in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Average Price Per Volume for So Delicious Coconut Milk Drops 13.4% from 2010 to 2011

Table 3-16 U.S. Average Price Per Volume for Selected Coconut Milk in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Silk Pure Coconut Holds 56% of the Branded Coconut Milk Market

Table 3-17 Retail Sales Market Share of Coconut Milk Brands in Food, Drug and Mass-Market Stores, 2010-2011

Hemp Milk Is a Small Player with Just Over \$2 Million in Sales

Table 3-18 U.S. Retail Sales of Hemp Milk and Selected Brands in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Average Price Per Volume for Hemp Milk Increases Slightly in 2011

Table 3-19 U.S. Average Price Per Volume for Selected Hemp Milk Brands in Food, Drug and Mass-Market Stores, 2010-2011 (in millions of dollars)

Living Harvest's Tempt Hemp Milk Dominates U.S. Market for Branded Hemp Milk Products

Table 3-20 Retail Sales Market Share of Hemp Milk Brands in Food, Drug Grocery Stores Are the Most Popular Venue for Dairy Alternative Beverage Sales

Table 3-21 Dairy Alternative Beverage Sales by Venue, 2011

## **Chapter 4 The Marketers**

Key Points

Competition in the Market

Private Label Products Move Front and Center

Marketers Introduce Single-Serve Dairy Alternative Beverages

The Dairy Alternative Beverage Market Primarily Comprises Small, Private Companies

Marketers of Dairy Alternative Beverages Respond to Consumer Health, Social and Ethical Concerns

Dairy Alternative Beverage Manufacturers Emphasize Organic

Competitive Profile: Blue Diamond Growers, Sacramento, CA

## **Chapter 5 Regulatory Policy and Legislative Issues**

Key Points  
The Food and Drug Administration Endorses the Health Benefits of Soy  
The Role of Isoflavones in Health  
The Food Allergen Labeling and Consumer Protection Act of 2004  
Exemptions, Petition, and Notification to the FALCPA  
Definition of a Food Allergy  
How Food Intolerance Differs from a Food Allergy  
FDA Regulations Related to Dairy Ingredients in Food and Beverage Products  
The U.S. Dietary Supplement Health and Education Act of 1994  
Adding Beneficial Nutrients to Conventional Foods  
Structure/Function Claims  
Health Claims  
The Difference Between Stated and Implied Health Claims  
The Nutrient-content Requirements Necessary for a Food to Bear a Health Claim  
Nutrient-Content Claims  
The USDA Position on the Term "Natural"  
The USDA Requirements for a Food or Beverage to Be Labeled "Organic"  
Table 5-1 Elements of Conventional Versus Organic Farming

National Milk Producers Federation Petitions the FDA to Prohibit Use of the Word  
“Milk” Relating to Plant-Based Beverages  
Accuracy in Labeling: Lacteal Secretions  
Accuracy in Labeling: Nutritional Quality  
Differences in Essential Nutrient Content Between Dairy Milk and Dairy Alternative  
Beverages  
The Case Against Casein  
Dairy Alternative Product Manufacturers Respond to the Labeling of Dairy-Free Products  
with the Words “Milk” or “Cheese”

## **Chapter 6 Trends and New Products**

### Key Points

Global Soy Beverage Product Sales Increase While Annual Launches See-Saw  
Table 6-1 Number of Dairy Alternative Beverage Product Introductions in the United  
States, 2007-2011

Table 6-6 Coconut Milk Introductions in the U.S. Market, 2007-2011  
Soymilk Introductions in the United States from January 2009 to December 2011  
Kroger Introduces Naturally Preferred and Private Selection Brands of Organic Soymilk  
Varieties  
SunOpta Introduces Organic Soymilk  
Seasonal Flavor, All Natural Soymilk Introduced by Silk  
Earth Balance Introduces Organic Soymilk in Four Varieties  
Silk All Natural Soymilk Introduced by WhiteWave Foods in 2010  
Almond Milk Introductions in the United States from January 2009 to December 2011  
HyVee Introduces All Natural Almond Milk in Two Varieties  
Trader Joe’s Introduces Original and Vanilla Unsweetened Almondmilk  
Whole Foods Market Launches Organic Almond Milk in Three Varieties  
Silk Pure Almond All Natural Almondmilk Launched by White Wave Foods  
Refrigerated Almond Breeze Joins the Dairy Case in 2009  
Almond Dream Introduced in March 2009  
Rice Milk Introductions in the United States from January 2009 to December 2011  
Alce Nero Files Product Report for Free-Trade, Organic Rice Milk  
Good Karma Introduces Organic, Whole Grain, Rice Beverage Varieties  
Wibe Natural Launches Rice Drink  
Hemp Milk Introductions in the United States from January 2009 to December 2011  
Pacific Foods of Oregon Introduces Three Varieties of Hemp Milk in 2009  
Coconut Milk Introductions in the United States from January 2009 to December 2011  
Turtle Mountain Introduces the First Coconut Milk  
Turtle Mountain Introduces So Delicious Coconut Milk Kefir  
Innovative So Delicious All Natural Cultured Coconut Milk Expands Turtle Mountain  
Line of Dairy Alternative Beverages  
Hain Celestial Introduces Coconut Dream in Three Varieties

WhiteWave Foods Introduces Silk Pure Coconut  
Trader Joe's Introduces Coconut Milk Beverage in Vanilla and Unsweetened Versions  
Selected Other Dairy Alternative Beverages Introduced in the United States from January 2009 to December 2011  
Pacific Foods introduces All Natural Hazelnut Original NonDairy Beverage, Followed by a Chocolate Variety in 2010  
Flax Milk Products Introduced in 2011  
Pacific Foods of Oregon Introduces 7 Grain Non-Dairy Beverage in Two Flavors  
New Packaging Technologies  
Dairy Alternative Beverages Enter the Espresso Mainstream  
Snapshot of the Transforming Global Dairy Alternatives Market

## **Chapter 7 The Consumer**

### Key Points

Consumers Have Increased Consumption of Dairy Alternative Beverages in the Past Five Years

Packaged Facts Survey Finds 5% of Respondents Are Lactose Intolerant, and 9% of Respondents Do Not Drink or Use Milk

Table 7-1 Consumer Rates for Lactose Intolerance or Avoidance of Dairy, 2011

Nearly Three Quarters of Survey Respondents Report Drinking Milk Once a Day or Less

Table 7-2 Daily Usage Rates for Milk, 2011 (percent of product users)

2%-Fat Milk is the Product Purchased Most Often by Consumers of Milk

Table 7-3 Response to Question: What Type of Milk Do You Buy?, 2011 (percent of product users)

Store Brand Milk Products Are Purchased Most Often by Consumers

Table 7- Response to Question: What Type of Brand of Milk Do You Buy?, 2011 (percent of product users)

Supermarkets Are by Far the Most Popular Venue for Milk Purchases

Table 7-5 Response to Question: Where Do You Buy Milk?, 2011

Packaged Facts Survey Finds Soymilk Is the Most Popular Dairy Alternative Beverage

Table 7-6 Response to Question: Which Milk Alternatives Do You Drink/Use?, 2011

More Than Half of Purchasers of Soymilk Cite Nutritional Characteristics as a Primary Consideration for Purchase

Table 7-7 Reasons for Purchasing Soymilk, 2011

Packaged Facts Survey Finds Use of the "Big Three" Dairy Alternative Beverages Declines With Age

Table 7-8 Popularity of the "Big Three" Dairy Alternatives Beverages (Soy, Almond and Rice) by Generational Cohort, 2011

Packaged Facts Survey Finds Use of the "Big Three" Dairy Alternative Beverages Increases With the Ages of the Children in the Household

Table 7-9 Popularity of the "Big Three" Dairy Alternatives Beverages (Soy, Almond and Rice) by Age of Children in Household, 2011

Packaged Facts Survey Finds Soymilk Is Most Popular Dairy Alternative Beverage Among Whites and Hispanics, but Almond Is Most Popular Among African-Americans and Asians

Table 7-10 Popularity of the “Big Three” Dairy Alternatives Beverages (Soy, Almond and Rice) by Ethnicity, 2011

Consumers Overwhelmingly Regard Soy Products as Healthy

Table 7-11 The Most Commonly Consumed Soyfoods Among Consumers of Soy, 2010

Diners Who Order Soy Milk in Restaurants Dramatically Increase from 2009 to 2010

Television News and the Internet Are the Leading Sources of Information about the Health Benefits and Nutrition of Soyfoods

Table 7-12 Sources of Health Benefits and Nutrition Information About Soyfoods and Percentage of Consumers Who Use Them, 1994, 2002 and 2010

Packaged Facts Survey Finds 36% of Product Users Report Drinking Soy Milk Once a Day or More

Table 7-13 Daily Usage Rates for Soy Milk, 2011 (percent of product users)

Consumers Prefer Regular (Original) and Refrigerated Soy Milk Products

Table 7-14 Response to Question: What Type of Soy Milk Do You Buy?, 2011

Supermarkets and Grocery Stores Are the Leading Venues for Soy Milk

Table 7-15 Response to Question: Where Do You Buy Soy Milk?, 2011

Simmons Experian Survey Finds Number of People Who Are Modifying Their Diet Due to Lactose Intolerance Is Increasing, as Is Use of Soy Milk in Addition to Regular Milk

Table 7-16 Lactose Intolerance and Soy Milk Consumption, 2007 and 2011

Packaged Facts Survey Finds 29% of Product Users Drink Almond Milk Once a Day or More

Table 7-17 Daily Usage Rates for Almond Milk, 2011 (percent of product users)

Consumers Prefer Regular (Original) and Plain/Unflavored Almond Milk Products

Table 7-18 Response to Question: What Type of Almond Milk Do You Buy?, 2011

As With Other Dairy Alternative Beverages, Supermarkets and Grocery Stores Are the Leading Venues for Almond Milk Purchases

Table 7-19 Response to Question: Where Do You Buy Almond Milk?, 2011

Packaged Facts Survey Finds 11% of Product Users Drink Rice Milk Once a Day or More

Table 7-20 Daily Usage Rates for Rice Milk, 2011 (percent of product users)

Consumers Prefer Regular Rice Milk in Vanilla Flavor

Table 7-21 Response to Question: What Type of Rice Milk Do You Buy?, 2011 (percent of product users)

Supermarkets and Grocery Stores Are the Leading Venues for Rice Milk Purchases

Table 7-22 Response to Question: Where Do You Buy Rice Milk?, 2011

Packaged Facts Survey Finds Most Consumers Are Uncertain of How Healthy Dairy Alternative Beverages are Compared to Dairy Milk, but the Great Majority of Consumers Believe Dairy Milk is Healthy

Table 7-23 Response to Psychographic Statements About Health Attributes of Milk and Milk Alternatives, 2011

Packaged Facts Survey Finds Most Consumers Prefer the Taste of Dairy Milk to Dairy Alternative Beverages

Table 7-24 Response to Psychographic Statements About Taste Preferences Relating to Milk and Milk Alternatives, 2011

Nearly 60% of Consumers Are Concerned About Growth Hormones in Milk, and 30% Believe Organic Beverages Are Worth the Higher Cost

Table 7-25 Response to Other Psychographic Statements About Milk and Milk Alternatives, 2011

Half of Product Users Report Consuming Soymilk Five Years Previous, Compared to 21% Who Report Consuming Almond Milk Five Years Previous

Table 7-26 Response to Questions About Milk Alternative Consumption Trends, 2011 (percent of product users)

Consumption of All Dairy Alternative Beverages Increases Substantially from 2006 to 2011, With Almond Milk Seeing the Biggest Gain

Table 7-27 Response to Questions About Soymilk Use Five Years Ago, 2011 (percent of product users)

Silk Soy Milk Leads the Pack As the Dairy Alternative Beverage Purchased Most Often By Consumers

Table 7-28 Response to Question: Which Brand(s) of Milk Alternatives Do You Purchase Most Often?, 2011

Kansas State University Survey on Organic Soymilk

Figure 7-1 Perceptions of Store-Brand to Branded Soymilk Products in Term of Brand Attributes and Perceptions of Soymilk Ingredients from Different Origins in Terms of Quality
