Nutraceutical drinks

TABLES

Table: Focus segments of leading players in functional drinks

Table: Number of functional soft drink launches by region

Table: Energy drink ingredients

Table: Energy drink ingredients: herbal extracts

Table: Anti-energy drink ingredients

Table: Ingredients with positive EFSA opinions related to energy/relaxation

Table: Identified ingredients for sports drinks (part 1)

Table: Identified ingredients for sports drinks (part 2)

Table: Sports drinks ingredients with a positive EFSA opinion

Table: Nutraceutical ingredients for heart health drinks (part 1)

Table: Nutraceutical ingredients for heart health drinks (part 2)

Table: Status of EFSA opinion for potential heart-healthy ingredients

Table: Heart-healthy ingredients with a positive EFSA opinion
Table: Nutraceutical ingredients for digestive health drinks
Table: Nutraceutical ingredients for bone and joint health beverages
Table: Nutraceutical ingredients for cognitive health (part 1)
Table: Nutraceutical ingredients for cognitive health (part 2)
Table: Ingredients for beauty drinks (part 1)
Table: Ingredients for beauty drinks (part 2)

FIGURES

Figure: Functional drinks cover different types of soft drinks
Figure: Global functional drinks market value (\$bn), 2009–2015
Figure: Global functional drinks value by region (\$bn), 2009–2015
Figure: Global functional drinks value by category (\$bn), 2009–2015
Figure: Leading companies in the global functional drinks market
Figure: Evolution of energy drinks towards shots and "natural" energy
Figure: Global volume consumption of energy drinks (liters m), 2009-2015
Figure: Number of global energy drink launches, 2006–11
Figure: Focus for development of new energy drinks
Figure: Examples of dairy-based energy drinks
Figure: Examples of fruit- and vegetable-based energy drinks
Figure: Examples of energy drinks in powder format
Figure: Examples of energy shots
Figure: MioEnergy: concentrated energy drink to be diluted
Figure: Examples of organic/"natural" energy drinks
Figure: Examples of sustained energy drinks
Figure: Examples of anti-energy or smart drinks
Figure: Ranking of energy ingredients in soft drink launches, 2009–11
Figure: Number of clinical trials by energy drink ingredient, 2008–11
Figure: Number of global patents on energy drink ingredients, 1987–2011
Figure: Global patent applications for energy drinks by ingredient, 2000–11
Figure: Number of EFSA applications by ingredient
Figure: Ranking of ingredients by attractiveness for energy drinks
Figure: Most popular sports drinks globally
Figure: Examples of recovery drinks
Figure: Examples of coconut water globally
Figure: Growth of global number of coconut waters
Figure: Examples of fortified coconut drinks
Figure: Global volume consumption of sports drinks (liters m), 2009–2015
Figure: Global number of sports drink launches
Figure: Ranking of claims used in sports drink launches
Figure: Share of identified ingredients in sports drink launches, 2009–11
Figure: Number of clinical trials by sports drink ingredient, 2008–11

Figure: Number of global patents for sports drink ingredients, 2008–11

Figure: Development in sports drinks is leading to an overlap with other segments

Figure: Ranking of ingredients by attractiveness for sports drinks

Figure: Global volume consumption of nutraceutical drinks (liters m), 2009–15

Figure: Number of nutraceutical drink launches, 2005–11

Figure: Therapeutic areas targeted by new functional drinks launched during 2008–11

Figure: NPD activity and growth of nutraceutical drinks by therapeutic area, 2008–11

Figure: Product examples of heart health drinks

Figure: Share of heart health ingredients in soft drink launches, 2009–11

Figure: Heart health ingredients by number of clinical trials, 2008–11

Figure: Patents on heart health ingredients by region, 2008–11

Figure: Number of global patents for heart health ingredients, 2008–11

Figure: Number of EFSA applications by ingredient

Figure: Ranking of ingredients by attractiveness for heart health drinks

Figure: Examples of probiotic and prebiotic drink launches, 2010–11

Figure: Examples of high fiber functional drink launches, 2010–11

Figure: Ingredients/claims in new digestive health drink launches, 2009–11

Figure: Digestive health ingredients by number of clinical trials, 2008–11

Figure: Digestive health ingredients by patent activity, 2008–11

Figure: Number of EFSA applications by ingredient

Figure: Ranking of ingredients by attractiveness for digestive health drinks

Figure: Examples of functional drinks with bone/joint health claim

Figure: Ingredients in bone and joint health beverage launches, 2009–11

Figure: Bone and joint health ingredients by clinical trial activity, 2008–11

Figure: Bone and joint health ingredients by patent activity, 2008–11

Figure: Number of EFSA applications by ingredient

Figure: Ranking of ingredients by attractiveness for bone health drinks

Figure: Cognitive-health-targeting product examples

Figure: Ingredients for cognitive health drinks by number of launches, 2009–11

Figure: Number of clinical trials on cognitive health by ingredient, 2008–11

Figure: Number of global patents for cognitive health by ingredient, 2008–11

Figure: Number of EFSA applications by ingredient

Figure: Ranking of ingredients by attractiveness for cognitive health drinks

Figure: Product examples of beauty drinks

Figure: Share of ingredients used in beauty drinks, 2009–11

Figure: Beauty and skin health ingredients by number of clinical trials, 2008–11

Figure: Beauty and skin health ingredients by number of patents, 2008–11

Figure: Ranking of ingredients by attractiveness for beauty drinks

Figure: Therapeutic area focus by NPD, clinical trials, patent activity, and EFSA applications
