Rationale & Objectives

Timely and factual competitive intelligence is vital to the success of all business functions, especially Planning, Marketing, R&D and Manufacturing. A continuous assessment of the competitive environment is becoming widely recognized as the highest priority management responsibility-- crucial to business survival, growth and profitability.

In a highly dynamic and fragmented paints and coatings market, besieged by intense competition and rapid pace of technological innovations, the ability to anticipate new product introductions and marketing strategies is particularly important... and spells the difference between success and failure.

The **Top 10**, a unique series of market intelligence studies first published by VENTURE PLANNING GROUP in 1987, is designed to provide the paints and coatings industry executives with strategically significant competitor information, analysis and insight, critical to the

development and implementation of effective marketing and R&D programs. The study's major objectives include:

- To establish a comprehensive, factual, regularly-updated and cost-effective information base on performance, capabilities, goals and strategies of the world's leading paints and coatings companies.
- To help current suppliers realistically assess their technological and marketing capabilities vis-a-vis leading competitors.
- To assist potential market entrants in evaluating prospective acquisitions and joint venture candidates.
- To complement organizations' internal competitor information gathering efforts by providing strategic analysis, data interpretation and insight.
- To identify the least competitive market niches with significant growth potential.
